Once again, our employees have surpassed all expectations of service in the face of increased workload and status quo resources. Over the last 10-years we have experienced an 18% increase in population, an 82% increase in mental health calls and a 25% increase in general workload. Yet, our authorized force has remained constant. I am extremely proud of our employees for meeting our 2017 goals. We filled all 14 of our police officer vacancies and developed a waiting list of superb candidates. We implemented a leadership investment plan to cultivate future leaders, which included a tuition reimbursement policy and command staff salary levels to match education requirements. Operation Change was very successful in helping the homeless while lowering the perception of crime downtown. Our vehicle crashes continue to decline along with our property crimes. Our detectives continue to clear more felony crimes than ever before, and they have become experts in the human trafficking prevention and enforcement front. Hands down, we have dedicated employees who care about Cheyenne!

Cheyenne Police 2017 Annual Report 6
Growth Creates Higher Police Demand
In 2017, CPD averaged 529 citizen initiated calls for service per 1000 residents

Benchmark Cities average* 468 citizen initiated calls for service per 1000 residents

Officers spent 57,914 hours on citizen initiated calls for service

Officers responded to 34,424 citizen initiated calls

*The Benchmark Cities Survey was designed in 1997 by a group of police chiefs from around the country. These chiefs sought to establish a measurement tool to help ensure their departments were providing the best service possible within their respective communities. The participating cities are: Bellevue, WA; Boca Raton, FL; Boise, ID; Boulder, CO; Broken Arrow, OK; Cedar Rapids, IA; Chesapeake, VA; Chula Vista, CA; Columbia, MO; Coral Springs, FL; Edmond, OK; Fort Collins, CO; Fremont, CA Garland, TX; Grand Prairie, TX; Henderson, NV; Irving, TX; Lakewood, CO; Lawrence, KS; Lincoln, NE; Naperville, IL; Norman, OK; Olathe, KS; Overland Park, KS; Peoria, AZ; Plano, TX; Richardson, TX; San Angelo, TX; Springfield, MO
Best practices suggest that no more than 60% of a police officer’s time be committed to calls for service or service demands in the community. The remaining 40% of the time is the “discretionary time” for officers to be available to address community problems. An agency that has discretionary time below 40% is largely reactive and has less time to be proactive in preventing crime.

In 2017, CPD officers logged 31% of their time as being discretionary time:

As Cheyenne grows, CPD is finding it more difficult to be proactive in community policing, traffic enforcement and crime prevention.

**Discretionary Time: Days Patrol: 28%  Swings Patrol: 32% Midnight Patrol: 38% Traffic: 26%**
Violent Crimes

Cheyenne has a violent crime rate that is 45% below the US average.
Property Crimes (6% Drop)
Total reported shoplifting cases in 2017: 694

Walmart accounts for 39% of all shoplifting and 14.25% of the total larcenies occurring in Cheyenne
Combined Crime Rate
5% Drop in Overall Part 1 Crime

Cheyenne has a crime rate that is proportionate to similar cities that also have a higher number of retail businesses; misdemeanor larceny and shoplifting is the dominate crime.
